

**SCHOOL OF KINESIOLOGY
UNIVERSITY OF BRITISH COLUMBIA**

MINOR IN A SCIENCE FOR KIN STUDENTS

APPLICATION FORM

An acceptable program must comprise courses recognized in the Faculty of Science that are for credit towards a Bachelor of Science degree and consist of at least 18 credits numbered 300 or higher in a single subject field or specialization, together with any necessary prerequisites. In addition, the following courses can be used for credit towards a Minor in Biology: CAPS 301, CAPS 390, CAPS 391, FNH 350, FNH 351, FNH 450 and FNH 451. Students should design a coherent and academically sound course of studies for their proposed minor, which must be approved by the School of Kinesiology Advisor, in writing, at the beginning of third year. **All courses must be acceptable for a Science Major in the proposed subject area or field.** (Notes: 1) Students who wish to pursue a Minor in Science should be aware of the prerequisites of many of the senior courses in Science. 2) Students who wish to pursue studies in the Faculty of Education should be aware that courses which are acceptable for a Minor in Science may not necessarily meet the requirements for a teaching concentration in the Faculty of Education). Upon successful completion of the Minor program, the notation "Minor in Science" will be denoted on the student's transcript.
