From: Paul Bucci  
Subject: Call for Study Participants - Perceptions of Robots and Technology in Childcare Contexts

The Sensory, Perception, and Interaction (SPIN) Research Group in the UBC Dept. of Computer Science is looking for participants for a study investigating perceptions of robots and technology in childcare contexts.

You will have the option to be entered into a draw to win a $50 gift card for a 15-minute survey session.

We will ask questions about your experience with childcare technology and ask you to assess a variety of childcare technologies.

If you wish to be involved in the study, please visit https://ubc.ca1.qualtrics.com/jfe/form/SV_4UYN79tihnrpsJD or have any questions, please contact us:

Main Study Contact: Paul Bucci  
PhD Student, UBC Computer Science

Subject: Call for Study Participants - $15/session for Perceptions of Robots and Technology in Childcare Contexts

The Sensory, Perception, and Interaction (SPIN) Research Group in the UBC Dept. of Computer Science is looking for participants for a study investigating perceptions of robots and technology in childcare contexts.

You will be compensated $15 for your participation in a single 1-hour session.

We may ask you to talk about your experiences with technology in childcare contexts. We may also ask you to provide examples and documentation of the technology you use. We may ask you to interact with some childcare devices and provide comment.

If you have any questions or wish to be involved in the study, please visit contact us:
