NOTES

- ❶ In order to obtain third-year standing in Kinesiology and Health Science, students must complete 12 credits of first-year Science in their first two years in at least three of the following four areas: Biology, Chemistry, Mathematics and Physics.
- ❷ Students planning to apply to professional health science programs, such as **Physiotherapy** and **Medicine**, are strongly encouraged to determine the necessary undergraduate requirements that are available in other faculties such as Science and Arts.
- ❸ Students in the KINH stream must, as a minimum, complete an additional 18 credits of Science in years 3 and 4, of which at least 12 credits must be at the 300/400-level and recognized in the Faculty of Science as credits that could be used towards a Bachelor of Science degree.
- ❹ All students must complete a minimum of 30 credits of KIN courses (percentage-graded) at the 300/400-level.
- ❺ All students must complete a minimum of 48 credits in total (percentage-graded) at the 300/400-level.
- ❻ Students **must** come in to KIN Advising in-person for an appointment before selecting the CREDIT/D/FAIL option for a course.
- ❼ Students who have completed **both** KIN 190 and KIN 191 **cannot** take KIN 131 for credit towards their degree (considered as 'extra').
Students who have completed **one** or **neither** of these courses must come in for an appointment with KIN Advising.

LL = lower level (100/200-level); UL = upper level (300/400-level)
