

# Saltin International Webinar in Exercise and Clinical Physiology November 9-10, 2021

Zoom link: <https://ubc.zoom.us/j/61121445206>

## Day 1: Tuesday November 9

**Schedule Times Are Pacific  
Standard Time**

- 9:00-9:05 **Welcome**  
David Wright, Professor, University of Guelph
- 9:05-9:20 **Exercise and clinical physiology perspectives**  
Jerome Dempsey, Professor, University of Wisconsin
- 9:20-9:50 **Exercise and the placenta**  
Kristi Adamo, Associate professor, University of Ottawa  
**Chair:** Mary-Ellen Harper, Professor, University of Ottawa
- 9:50-10:20 **Role of myokines in the regulation of muscle metabolic function in response to exercise in health and type 2 diabetes**  
Céline Auger, Professeur Auxiliaire, Institut du Savoir Montfort, Université d'Ottawa  
**Chair:** David Wright, Professor, University of Guelph
- 10:20-10:50 **Angiotensin-converting Enzyme-2 (Covid-19) receptor expression in skeletal muscle: effect of fitness and adiposity**  
José A. Calbet, Professor, University of Las Palmas, Gran Canaria, Spain  
**Chair:** Robert Boushel, Professor, University of British Columbia

## Day 2: Wednesday November 10

- 9:00-9:05 **Welcome**  
Michael Kjær, Chief Physician, University of Copenhagen
- 9:05-9:35 **Endothelial function and angiogenesis in postmenopausal women: effect of exercise training**  
Lasse Gliemann, Associate Professor, University of Copenhagen  
**Chair:** Ylva Hellsten, Professor, University of Copenhagen
- 9:35-10:05 **Exercise, statins and muscle metabolism**  
Steen Larsen, Associate Professor, University of Copenhagen  
**Chair:** Flemming Dela, Professor, University of Copenhagen
- 10:05-10:35 **COVID-19, exercise and the heart**  
Hanne Rasmusen, Chief Physician, University of Copenhagen  
**Chair:** Michael Kjær, Professor, University of Copenhagen
- 10:35-10:40 **Saltin Course 2022 Announcement: [Niagara on the Lake](#)**  
Robert Boushel, Professor, University of British Columbia
