ACKNOWLEDGEMENT

UBC’s Point Grey Campus is located on the traditional, ancestral, and unceded territory of the xwməθkwəy̓əm (Musqueam) people. The land it is situated on has always been a place of learning for the Musqueam people, who for millennia have passed on in their culture, history, and traditions from one generation to the next on this site. I would also like to acknowledge that students and guests in this course join us from many places, near and far, and acknowledge the traditional stewards and caretakers of those lands.

COURSE DESCRIPTION AND RATIONALE

This course is part of the core curriculum in the School of Kinesiology. Building on the sociological theories and concepts introduced in KIN 160, the course examines the sociology of health and health policy. We will explore and analyze the Canadian health care system and current health issues from a sociological perspective and with a particular focus on the individual experience of health and illness and the social determinants of health. The course includes discussions pertaining to how gender, racialization, aging, chronic illness, disability and more, shape or constrain health-related experiences and outcomes. The course provides a socio-cultural foundation for students interested in pursuing careers in health care and health-related fields.

LEARNING OUTCOMES

The goal of the course is to provide students with sufficient knowledge and understanding that they will be able to critically (1) examine health in a social context; (2) use sociological theories to explore topics related to health and illness; and (3) explicate the tensions between agency and determinism in relation to health, illness, and the social determinants of health.

Specific Learning Objectives

By the end of this course, students will have:

1. **Identified** key aspects of the Canadian healthcare system, including the Canada Health Act and key historical moments in the development of contemporary Canadian health policy.

2. **Discussed and expounded** upon the debates between agency and structure as they relate to individual and population health.
3. **Described** the social aspects of health and illness, including but not limited to the social determinants of health and the social norms influencing health and illness experiences.

4. **Demonstrated** proficiency in applying sociological concepts to everyday experiences of health and illness.

**PREREQUISITES**

Registration is limited to students who have successfully completed the Year 1 Kinesiology core curriculum and have 2nd year standing.

**OFFICE HOURS**

To book a meeting with me, check the Canvas 262 Course Calendar. Each week I have several slots listed when I am available to meet and you can book them online. If all the appointments are booked, I will add additional time slots (you can email me to let me know the appointments are full and/or I will proactively add more slots as they fill up). The link to join my ‘Office Hour Zoom Room’ is:

https://ubc.zoom.us/j/67651299377?pwd=QSsyOFBSMmxqNDErT0dMSEdFMzNBQT09

Meeting ID: 676 5129 9377
Passcode: 486551

If you prefer to meet in person, you can contact me and we will make arrangements. In person meetings will take place at my office:

Office 156F, Auditorium Annex, 1924 West Mall
**** Meetings with Teaching Assistants should be booked by contacting them via email. Please indicate your preference for online or in person. They will provide you with their availability. ****

COURSE STRUCTURE

In person classes: Wednesday, 4pm to 7pm in BIOL 1000

This course is IN PERSON with weekly lectures and also online asynchronous (on your own schedule) modules and activities. Both in person and online activities are mandatory to complete the course.

**** SEE WEEKLY SCHEDULE AT END OF THIS DOCUMENT FOR DETAILED SCHEDULE. ANY CHANGES TO SCHEDULE WILL BE COMMUNICATED VIA CANVAS ANNOUNCEMENTS****

In person lectures and classroom activities are scheduled from 4:00pm to 7:00pm on Wednesdays. Notes (slides and additional materials) will be posted in advance on Canvas. Recordings will be made of the lectures and posted online afterwards. Students should be aware that in person attendance is strongly encouraged and the course is designed with the expectation that students will make every effort to attend in person. The lecture capture technology occasionally fails and the instructor cannot guarantee that the recordings will always be available. If you are unable to attend, it is your responsibility to review the slides and ask a classmate for notes.

Students who miss multiple in person classes (i.e. for extended illness or varsity team travel) should speak to Dr. Bundon as soon as possible to discuss arrangements.

Asynchronous modules and learning activities include readings from the course textbook, short and long videos, podcasts, newspaper articles and a number of ungraded self-tests, polls, and self-guided study questions for students to complete online. Online content is made available each week on Monday at 8am. Students should aim to complete all module activities prior to Monday the following week. Most online activities do not have due dates and are not submitted or graded. However, keeping to the suggested schedule will ensure that you are fully able to participate in classroom discussions and are ‘keeping pace’ with the class. There are 5 online activities that are graded as complete/incomplete – these are due on Wednesdays at 4PM the following week!!! Details and dates provided below and in Canvas.

LEARNING MATERIALS

***STUDENTS WHO EXPERIENCE ISSUES ACCESSING CONTENT FOR ANY REASON SHOULD CONTACT DR. BUNDON AS SOON AS POSSIBLE TO EXPLORE ALTERNATIVES.***
**Textbook:** The textbook used for this course is:

**** It is important that you are referencing the ‘2nd Canadian edition’. Each week, a specific chapter (occasionally two) will be assigned as required reading. The schedule of assigned readings is listed below in the ‘Schedule of Topics’ section and also in the introduction to each module on Canvas. ****

**Videos:** This course makes extensive use of documentary videos and other short audio/video content. Instructions to find and view the videos will be posted in the Canvas modules. Most of the videos are provided through subscriptions managed by UBC Library or on public sites on the web.

**Podcasts:** A number of podcasts are used in this course. Direct links to podcasts and relevant episodes will be posted in the Canvas modules. Students can stream the audio online or download using a podcast platform/app to listen offline.

**Newspaper articles:** Newspaper articles are used to prompt discussions about current topics and debates pertaining to the Canadian healthcare system. Links to articles will be posted in the Canvas modules.

**Lecture slides and assignment info:** All slides from lectures and information regarding assignments and midterms will be posted on Canvas.

*Additional resources may be posted on Canvas throughout the semester.*

**ASSESSMENTS OF LEARNING**

Students will be evaluated on the following items:

<table>
<thead>
<tr>
<th>Assignment</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>Midterm 1 (Wednesday, October 12th)</td>
<td>22.5%</td>

University of British Columbia
#5 Wednesday, November 30th

Written Assignment Proposal (Wednesday, Nov 2nd) 5%

Peer Review
(submit draft Friday, November 25th,
return feedback Wednesday, November 30th) 5%

Written Assignment (Wednesday, December 7th) 40%

Midterms (45%)

There are 2 midterms exams for this course (each worth 22.5%) These will be held on Wednesday, October 12th and Wednesday, November 23rd. The midterms will begin promptly at 4PM and students will have 60 minutes to complete (there will be a short break and then a lecture will start at 5:15PM). Midterm 1 covers all material from Weeks 1 - 5 (inclusive), Midterm 2 covers material from Weeks 6 -11. Key concepts and theories will be repeated in across both midterms.

The midterm exam will take the form of multiple-choice, true/false, and long answer questions. All midterms will be conducted in person.

Any student who misses a midterm must contact Dr. Bundon with 48 hours of the midterm regardless of their reason for missing.

Should students who miss one midterm exam due to illness, family emergency, sports team commitments, or other extenuating circumstances, the other two midterms will become worth 35% and the written assignment will become worth 50% of the student’s final grade. Students who both midterms must book a meeting with Dr. Bundon to discuss the possibility of make-up exams or other accommodations. Missing both midterms will result in a failing grade if other arrangements are not made.

Online activities (5%)

Throughout the term, there will be 5 online activities to complete – these will take the form of quizzes (open book/untimed), short reflections and/or short answer questions. These will be completed and submitted on Canvas and are due Wednesdays at 4PM (see above for dates). Students are welcome to complete these activities alone or in groups of 2 or 3 (you will be asked when submitting to list the names of classmates you worked with or state that you did the work alone). These activities will be graded for completion – 1 mark if completed and submitted on time, 0 marks if not completed or submitted late. No extensions or redistribution of grades will be provided for these activities.
Written Assignment Proposal (5%)

Students will write a proposal outline their plan for their Written Assignment. The proposal will include: a) a brief (150-250) description of their plan in which they list the news story (taken from the approved list) they plan to analyze and the sociological theory and key concepts they propose to use plus a rationale for the same, b) a reference list in which they identify at least 2 journal articles published in or after 2017 that address the topic from a sociological perspective that they will use for their assignment. The Written Assignment proposal is due by Wednesday, November 2nd at 4PM via Canvas. This is intended to support students to get started on the assignment and ensure that the newspaper article they have selected is conducive to writing a strong paper and that they are finding appropriate resources to draw on in writing their paper. This is a complete/incomplete assignment and no extensions or make-up assignments will be granted. Details and instructions will be provided in class and posted in Canvas.

Written Assignment (40%)

The assignment is due Wednesday, December 7th at 4PM and must be submitted online via Canvas.

The assignment will entail a consideration of the health issue from a sociological perspective. To begin, student will be required to find a recent newspaper article (published in 2022) from a list of approved articles that addresses a health-related topic. Students will select one of the 6 sociological theories (and respective key concepts) presented in the weekly lectures to discuss and analyze the health issue. Additionally, students will utilize and reference a minimum of 2 (published no earlier than 2017) academic journal articles that have researched or theorized the topic from a sociological perspective. Further details about this assignment, including a grading rubric, will be presented in class and posted on Canvas during Week 7.

Assignments not submitted online via the course’s Canvas page by Wednesday, December 7th at 4PM will be considered late and subject to mark deductions. Late Written Assignments will be accepted with a penalty of two marks per day (including weekends) out of the total 40 marks for the assignment, with each day ending/starting at 4PM Late assignments should still be submitted online via Canvas.

***Students who are unable to meet the deadline must contact Dr. Bundon as early as possible to discuss the possibility of an extension. ***

Participation in Peer Feedback (5%)

Students will have the opportunity to provide and receive peer feedback in advance of submitting their final Written Assignment. To participate in the peer feedback process, students must submit a draft of their Written Assignment by Friday, November 25th at 4PM via Canvas. Students will be randomly assigned to provide feedback to their peers and will have until Wednesday, November 30th at 4PM to provide feedback. Students will receive 1% for submitting their
draft for feedback from others and 2% for each assignment they review for others (up to maximum of 4%). This is a complete/incomplete assignment and no extensions or make-up assignments will be granted. Details and instructions will be provided in class and posted in Canvas.

**Procedure for Review of Grades**

Occasionally students disagree with the marks they receive. To request a review of a mark the following procedure must be followed. The student should send an email describing in detail the nature of the perceived marking error and the basis for the request to review. This memo must be submitted to Dr. Bundon no sooner than 48 hours and no later than one week after receiving their grade on the assignment/exam. ANY EMAILS RECEIVED BEFORE 48 HOURS HAVE PASSED WILL BE DELETED WITHOUT REPLY (trust me – nothing good comes of an email sent in haste or out of frustration). Please note that when a mark is reviewed, the final re-graded mark may stay the same, be increased, or go down from the originally assigned grade.

**UNIVERSITY POLICIES**

UBC provides resources to support student learning and to maintain healthy lifestyles but recognizes that sometimes crises arise and so there are additional resources to access including those for survivors of sexual violence. UBC values respect for the person and ideas of all members of the academic community. Harassment and discrimination are not tolerated nor is suppression of academic freedom. UBC provides appropriate accommodation for students with disabilities and for religious observances. UBC values academic honesty and students are expected to acknowledge the ideas generated by others and to uphold the highest academic standards in all of their actions. Details of the policies and how to access support are available on the UBC Senate website.

**OTHER COURSE POLICIES**

**Academic Accommodation for Students with Disabilities**

The University's goal is to ensure fair and consistent treatment of all students, including students with a disability, in accordance with their distinct needs and in a manner consistent with academic principles. Students with a disability who wish to have an academic accommodation should contact and register with the Centre for Accessibility without delay (http://students.ubc.ca/about/access). Please contact Dr. Bundon early to discuss any accommodations that you require. Dr. Bundon also welcomes feedback and suggestions on how to make this course more widely accessible to students with a disability.

**Inclusivity Statement**

School of Kinesiology courses take place in learning environments that are inclusive of gender identity, gender expression, sex, race, ethnicity, class, sexual orientation, ability, age, etc. Learners and educators expect to be treated respectfully at all times and in all interactions. Non-
sexist, non-racist, non-homophobic, non-transphobic and non-heterosexist language is expected in our classes, course content, discussions and assignments. Please feel welcome to email Dr. Bundon and the Teaching Assistants your name and pronouns and how you would like these to be used.

**Academic Integrity**
All UBC students are expected to behave as honest and responsible members of an academic community. Breach of those expectations or failure to follow the appropriate policies, principles, rules, and guidelines of the University with respect to academic honesty may result in disciplinary action. It is your responsibility to become familiar with the University of British Columbia’s Academic Honesty and Plagiarism Policies, as well as the Student Declaration and the consequences of violating these policies. Students are encouraged to visit: [http://www.calendar.ubc.ca/vancouver/?tree=3,54,111,959](http://www.calendar.ubc.ca/vancouver/?tree=3,54,111,959).

**LEARNING ANALYTICS**
This course will be using the following learning technologies: Canvas (+ extensions and integrated apps), Mentimeter, and Turnitin. Many of these tools capture data about your activity and provide information that can be used to improve the quality of teaching and learning. In this course, the instructor intends to use analytics data to:

- View overall class progress and encourage and facilitate in class discussions.
- Track your progress in order to provide you with personalized feedback.
- Review statistics on course content being accessed to support improvements in the course.
- Assess your participation in the course.
- Grade assignments and provide you with personalized feedback.

**COPYRIGHT**
All materials of this course (course handouts, lecture slides, assessments, course readings, etc.) are the intellectual property of the Course Instructor or licensed to be used in this course by the copyright owner. Redistribution of these materials by any means without permission of the copyright holder(s) constitutes a breach of copyright and may lead to academic discipline. Dr. Bundon provides recordings of lectures **personal use only** but respectfully requests that you do not distribute the recordings or share them in any digital format or online platform.

**WEEKLY SCHEDULE**
The topics and assigned readings for each class are listed below, although this may be subject to change. Changes will be communicated in class and on Canvas.

<table>
<thead>
<tr>
<th>Week 1: September 7th</th>
<th>Introduction</th>
</tr>
</thead>
</table>
**This week we will begin by reviewing the course format and syllabus followed by an introduction to the biomedical model and social model of health.**

<table>
<thead>
<tr>
<th>Week 2: September 14th</th>
<th>Social Models of Health and Illness</th>
</tr>
</thead>
<tbody>
<tr>
<td>This week will continue the discussion about sociological understandings of health and illness and how social theory/theories can be used to explore health. Two social theories (Structural Functionalism and Marxism) will be introduced.</td>
<td>Chapter 2 – Theorizing Health: Major Theoretical Perspectives in Health Sociology <em>(note - you will return to this chapter many times!)</em></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Week 3: September 21st</th>
<th>The Canadian Health Care System</th>
</tr>
</thead>
<tbody>
<tr>
<td>This week examines the structure and formation of the Canadian health care system including the historical divide in provincial and federal jurisdiction and the origins of the Canada Health Act.</td>
<td>Chapter 12 – Medicine, Medical Dominance, and Public Health</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Week 4: September 28th</th>
<th>Health Professionals (Working in Healthcare)</th>
</tr>
</thead>

<td>Chapter 4 – Class, Health Inequality, and Social Justice</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Week 6: October 12th</th>
<th>Living with Chronic Illness</th>
</tr>
</thead>
</table>
This week, we will use the sociological theory Symbolic Interactionism to examine the lived experience of chronic illness.

<table>
<thead>
<tr>
<th>Week 7: October 19th</th>
<th>Gender and Health</th>
</tr>
</thead>
<tbody>
<tr>
<td>This week will explore feminist theories and consider the relationships between gender and health.</td>
<td>Chapter 5 – Women’s health in Context: Gender Issues</td>
</tr>
</tbody>
</table>

Week 8: October 26th | Racialization and Health

Beginning with an examination of anti-racism sociological frameworks, this week we will examine the relationships between race, ethnicity and health.

<table>
<thead>
<tr>
<th>Week 9: November 2nd</th>
<th>Indigenous Peoples and Health</th>
</tr>
</thead>
<tbody>
<tr>
<td>This week we will focus on the health and social issues facing Indigenous peoples with a particular focus on historical abuse on present day experiences of health.</td>
<td>Chapter 7 – Canada’s Aboriginal People and Health: The Perpetuation of Inequalities</td>
</tr>
</tbody>
</table>

Week 10: November 9th | MIDTERM BREAK

Week 11: November 16th | Climate Crisis and Health

This week will explore the climate crisis and implications on human health. (GUEST LECTURE TBC)

<table>
<thead>
<tr>
<th>Week 12: November 23rd</th>
<th>Aging and Health</th>
</tr>
</thead>
<tbody>
<tr>
<td>This week will focus on the concept of ageism to explore the health and illness experiences of older adults.</td>
<td>Chapter 11 – Aging, Dying, and Death in the Twenty-First Century</td>
</tr>
</tbody>
</table>
### Week 13: November 30th

**Disability and Health**

This week we will focus on the health and social issues facing people with disabilities in Canada. We will also discuss medical, social and social relational models of disability.

Chapter 10 – Constructing Disability and Living with Illness (repeat)

---

### Week 14: December 7th

No class – submit Final Written Assignment

*Version: September 2022*
