INTRODUCTION TO KIN 160

Former British Prime Minister, Margaret Thatcher, famously stated that “there is no such thing as society: there are individual men and women, and there are families”. Contrary to the individualist imperative that characterizes contemporary times, this course aims to bring “society” back into the conversation through an interrogation of how social, cultural and historical factors shape physical activity, leisure and sporting practices. We examine how ideas or knowledge about gender, social class, sexuality, age, body shape and size, and racial identity are embedded within intersecting relations of power that inform how individuals move, play and recreate. A range of teaching tools (e.g., lectures, film, tutorial activities, course readings, group work and independent writing) will provide you with a sociological toolbox to pry open the myth of the society-less world and, in the process, expose human movement as an irreducibly social phenomenon.

COURSE DESCRIPTION

Introduction to the political, economic and social basis of leisure and sport, concepts, theories and problems.

COURSE OBJECTIVES & INTENDED LEARNING OUTCOMES

- By the end of this course, students will acquire a foundational knowledge of sociology and its relationship to sport and physical activity, including the ability to:
 - identify and describe key sociological theories and concepts;
 - discuss and evaluate the strengths and weaknesses of different sociological theories and concepts;
 - understand the historical origins of Canadian sport and its relationship to contemporary sporting practices;
 - apply different sociological theories and concepts in understanding sport, physical activity and human movement;
 - examine how power relations shape sport, physical activity and human movement.

- By the end of this course, students will gain critical writing skills, including being able to:
 - demonstrate the ability to plan and organize an effective scholarly essay outline;
 - identify and define key sociological concepts and terms in developing an effective argument;
 - compose a scholarly essay with an effective introduction and conclusion;
 - use the basics of the American Psychological Association's (APA) referencing system;
 - analyze and write about their own physically active and sporting bodies using sociological theory.
- By the end of this course, students will develop competencies in group discussion and group work, including:
 - engage and work collaboratively with peers to critically examine issues related to physical activity and sport;
 - work collaboratively with peers to apply course content to issues related to physical activity and sport;
 - reflect upon and share one's experiences in, and perspectives on, sport and physical activity;
 - listen to the experiences and perspectives of others on sport and physical activity;
 - synthesize and compose responses to assigned case study scenarios related to sport and physical activity.

COURSE FORMAT

The details for each week can be found on the Canvas shell under the Modules section.

The course is comprised of pre-recorded video lectures, in-person classes, and in-person tutorials. Prior to coming to class or tutorial, you should have read the assigned readings and completed relevant learning activities.

Schedule of Activities: KIN 160				
Week #				Module
Week 1		No class	Lecture	Introduction
Week 2		Lecture	Lecture/Intro Tutorial	Sport & Physical Culture
Week 3 & 4		Lecture	Tutorial 1	Sociological Theories
		Lecture	*Asynchronous	
Week 5		Lecture	Tutorial 2	Sport & Physical Culture in Historical Perspective
Week 6		Lecture	*Asynchronous	Sport & Social Stratification
Week 7		Lecture	Tutorial 3	Gender, Sexuality & Physical Culture
Week 8		Lecture	Lecture	Race, Ethnicity & Physical Culture
Week 9		Guest Lecture	Mid-Term Exam	Indigeneity & Physical Culture
Week 10		Lecture	Tutorial 4	Sport & Health
Week 11		READING WEEK	*Asynchronous	Independent Work
Week 12		Lecture	*Asynchronous	Sport & Politics
Week 13		Lecture	Tutorial 5	Sport & the Future

Week 14		Hand-out Take Home Exam	No Class	
---------	--	-------------------------	----------	--

*Asynchronous=learning activities to be done independently at your own pace (i.e., pre-recorded lectures on Canvas, readings, videos, course assignments, and other learning activities).

EVALUATION

Evaluation and assessment	% of grade	Due Date
1. Tutorial Activities	15%	See Schedule (Tutorial Activities)
2. Mid-Term Exam	25%	October 31 st
3. Physical Cultural Analysis Assignment	45%	
	5% (Part I)	September 17 th
	10% (Part II)	October 3 rd
	30% (Part III)	November 15 th
4. Take Home Exam	15%	December 5 th

Policy Regarding Late Submissions: With the exception of approved extensions, late assignments will be penalized 5% per day (e.g. 8.5/10=85% - (one day late) 5%=80% or 8/10), up to ten days, after which they will not be graded. Assignments should be submitted before 11:59pm (PST) on the day they are due (See **Evaluation** and assessment above for due dates), with the exception of tutorial assignments, which are due 2pm (PST) on the day of the tutorial. Assignments submitted after 11:59pm on the day they are due will be graded late.

1. TUTORIAL ACTIVITIES (15%)

Learning Objectives
1. Application of sociological theory to everyday sport, physical activity and human movement contexts;
2. Develop group communication skills;
3. To collaborate with peers in examining, and developing solutions to, sociological issues and controversies related to sport, physical activity and human movement.

Instructions: The class will be randomly divided into four tutorial sections (T1, T2, T3, T4). You can find your tutorial section on Canvas under People and then Tutorial Sections. Each tutorial section will be assigned a tutorial leader (T1-Moss, T2-Hanna, T3-Emily, T4-Brooklyn) and this will be your tutorial leader for the term. On select Thursdays throughout the semester (see **Tutorial Dates & Themes** below) students will meet in class in their assigned tutorial sections. In tutorial, students will discuss and apply course material to issues and controversies related to sport and physical activity. In order to be prepared for tutorial, please read assigned course readings for the related week (see Schedule of Readings) and read/view other learning resources associated with the week (see Readings & Learning Resources).

- a. At the beginning of each tutorial, students will be randomly divided into small groups (approx. 5-8 students per group).
- b. Each group will engage in an interactive learning activity. Upon completion of the activity each group will complete a worksheet or related assignment. This worksheet will ask each group to document the results of the activity and answer questions connecting the group's findings to the assigned readings/lectures. One member of the group will type up the completed worksheet and email it to the tutorial leader. It is helpful to the other members of

the group if they are attached (or carbon copied/CC'd) on the email to the tutorial leader so they know the worksheet has been submitted. *The full names and student numbers of all members of the group must be clearly indicated on the submitted assignment.* At the latest, the worksheet should be emailed to your tutorial leader by **2pm on the day of the tutorial.**

- c. Evaluation: Each student in the group will receive **a mark out of 4** for the worksheet. All members of the group will receive the same grade out of 4. In order to receive a grade for the tutorial, you will have to be present and actively participate in the tutorial. At the end of the term, each student's worksheet grades will be totaled and converted to a grade out of 15, which will be the final grade for tutorial activities. Evaluation will be based on the following criteria:

There are five graded tutorials (six tutorials in total) scheduled throughout the term (see **Tutorial Dates & Themes** below and Canvas Modules for details).

Tutorial Evaluation Criteria	
1. Level of engagement/analysis in the activity (demonstrated through presentation of results)	1.5 marks
2. Succinct yet thoughtful answers to questions and responses to activities	1.5 marks
3. Connections to readings and lectures and related activities	1 mark

NOTE: Students who miss tutorial for legitimate reasons (e.g., documented illness, varsity competition) will be required to do supplementary work. To the degree possible, students should notify their tutorial leader in advance of their absence and make arrangements to submit supplementary work to their tutorial leader in a timely fashion (2-3 days after the absence).

Tutorial Dates & Themes

Tutorial	Weekly Dates	Relevant Content	Topic
		Introduction	Introducing the Tutorials
1.		Week 1-3	Thinking the 'Physical' and the 'Cultural' Together
2.		Weeks 1-5	Sociological Imagination
3.		Week 7	Gender, Sexuality & Sport
4.		Week 8 & 9	Race, Ethnicity & Sport
5.		Entire Course	Kinesiological Imagination

2. MID-TERM EXAM (25%)

The mid-term exam is an in-class, written exam that will take place on . The exam will cover all learning materials (this includes, lectures, readings, tutorial activities, and videos, and other relevant materials) in the course up to the date of the exam. The exam will be 60 minutes in duration.

3. PHYSICAL CULTURAL ANALYSIS ASSIGNMENT (45%)

Learning Objectives
1. Develop skills in writing a sociological essay
2. Apply sociological theory to examine a relevant issue related to physical activity, sport and the body.
3. Examine your own moving body through a physical cultural lens
4. Develop skills using the American Psychological Association (APA) referencing style

Overview: In the School of Kinesiology, we dedicate considerable attention to the body. Whether it is the

sick or unhealthy body, the young or older adult body, the high-performance sporting body, or the physically (il)literate body, the body is central to our academic program, as it is to the profession of kinesiology. In much of this discussion, however, the body is understood as a natural or biological entity that exists outside of social, historical and cultural context.

In this assignment, you will use your own body as a site to examine the socio-cultural relations that construct how we understand and experience our bodies. In other words, we are going to apply a physical cultural lens to examine our moving bodies. In the readings and lectures for Week 2, as well as in Tutorial 1, we examined how the body is part nature and part culture. Building on these examinations, the overarching objective of this assignment is to examine your moving body through the intersection of the physical (i.e., the natural) and socio-cultural.

Structure: The physical cultural analysis assignment is divided into three parts, including:

Part I) Mini-Description of Your Physical Cultural Body;

Part II) Physical Cultural Analysis Outline;

Part III) Physical Cultural Analysis Paper.

Dividing the assignment into three parts is designed to scaffold the assignment, with each successive part developing the competencies required to submit your final paper (Part III). A detailed description of each part is outlined below.

Part I: Description of Your Physical Cultural Body (5%)

Due: (PST). Papers received after 11:59pm will be considered late. Papers can be uploaded to Canvas under Assignments.

Purpose: The purpose of this assignment is to get you thinking about your socio-cultural body (i.e., your body as it interacts and relates with society). The feedback you receive on this assignment should help you conceptualize your final paper Physical Cultural Body Analysis Paper.

Instructions: In this assignment you are going to write about the social, historical and cultural factors that shape how you experience your body, particularly your moving body. You may want to ask yourself questions about why you do the activities you do? Who do you do these activities with? Who has influenced the activities you do? What socially constructed meanings are attached to these movement activities? How do various ideologies, or webs of ideas, such as class, gender, race, ethnicity or body shape and size influence the activities you do or do not do? These questions are designed to help you use your sociological imagination in understanding that the sports and physical activities you do, and the meanings attached to these activities, are not completely of your own choosing, but are shaped and formed through social interactions and relationships with individuals and groups. There are a number of styles you can use to describe your socio-cultural body. For example, you may want to use a narrative description, a poem or some other style. There is no *right way* to describe your socio-cultural body, so feel free to be creative for Part I of the assignment. Recognizing that talking about our own bodies can be a very personal exercise, it is important that you *only* include what you are comfortable sharing. Being comfortable with what you share is particularly important given that you will be sharing your description with one of your peers in the class.

Evaluation: The evaluation for the Description involves three steps:

1. You will upload your Description to Assignments on Canvas.
2. You will be randomly partnered with a peer in the class. Take a day or two to read and assess their Description, and someone else in the class will do the same with your Description. Prepare feedback to share with your partner (see **Tips Peer Feedback Criteria** below).
3. You should upload feedback related to their Description and they will do the same for you. The feedback should be uploaded by . There is not set criteria for providing feedback. However, the feedback you provide should be in written form and it should be

comprehensive and should be completed through Peer Reviews on Canvas. The **Description of Your Physical Cultural Body Part I: Tips for Peer Feedback** below provides some suggestions for the type of feedback you should be providing.

4. In order to receive full marks (5%), you will have to:
 - a) submit your Description of Your Physical Cultural Body Part I by (11:59pm, PST);
 - b) review and provide feedback on your partner's Descriptions and do so by September 24th (11:59pm, PST).

NOTE: If you do not upload Part I by *or* your Peer Review by , a penalty of .5 marks will be assessed to your mark out of 5% for each day that it is late. Teaching assistants will be reviewing the Description and Peer Reviews to make sure they are both complete and thorough.

Description of Your Physical Cultural Body Part I: Tips for Peer Feedback

Providing Feedback: You will review and provide feedback on the Description of Your Physical Cultural Body Part I of another student in the class. The feedback should be constructive, thoughtful, supportive and detailed. Feedback can come in multiple forms, including: identify strengths in the Description; ask questions that provoke deeper thinking; suggestions for greater clarity on specific themes or elaboration on points; and recommendations for resources, points of connection across the course, and suggestions for the organization of Physical Cultural Analysis Outline (Part 2). Keep in mind, this feedback is designed to help your peers produce an exceptional final project!

Format:

1. Two typed pages, double spaced (not including title page). Page requirements will vary for poems.
2. 12-point font
3. One-inch margins
4. Title page (American Psychological Association (APA) format—example to be posted on Canvas) with appropriate information (course name, course number, a relevant title, assignment title, due date, name of course instructor, student name and number).

Submission: Assignments should be submitted on Canvas under the Assignments heading.

Part II: Physical Cultural Analysis Outline (10%)

Due: 11:59pm (PST). Outlines received after 11:59pm will be considered late. Outlines can be uploaded to Canvas under Assignments.

NOTE: There is dedicated lecture time on to overview and discuss Part II of the Physical Cultural Analysis assignment.

Purpose: The purpose of this assignment is to present an outline for your final Physical Cultural Body Analysis Paper. Your outline will be graded by the teaching assistants for the course and the feedback you receive should help you write a high-quality final paper.

Instructions: Your outline should provide a detailed overview of what you will write about in your final paper. Based on the feedback you receive on your outline you may decide to change what you write about in your final paper, and this is completely acceptable. In other words, your outline is just that—a proposed outline—and it is understood that it may change. Your outline should include the following components:

- 1) The introductory paragraph for your final paper. Your introduction should introduce the topic of the paper, the over-arching argument, and organization of the paper. This is a short paper, so the introduction should be no more than one paragraph. Here is an example of an introductory paragraph:

Sport has always been an important part of my life. In high school I was on almost every sport team, no matter whether I was good or not. Until recently, I would have said sport was in my genes. However, I am now realizing that my passion for sport is also shaped by my social and cultural environment. In this paper, I use my sociological imagination to examine the social and cultural dimensions that shape my sporting body. In the first section of the paper, using the concepts of economic and social capital, I will examine how my social class background influenced my relationship with sport. In the second section, I explore the role that socially constructed ideas of gender, particularly ideals of masculinity, shaped the sports I played as well as those I did not play.

You will notice that this introduction does three things: first, it introduces the topic (i.e., a physical cultural lens); second, it presents the over-arching argument (i.e., desire and passion for sport is shaped by social and cultural context); and third, it overviews the organization of the paper (i.e., “In the first section...”). This is just an example of an introduction and you are welcome re-organize for your own purposes. However, having these three components—the topic, the argument, and the organization—is always a good idea.

- 2) Overview the key points/arguments of your paper: In paragraph or in *clearly articulated* point-form, briefly overview the points and arguments you intend to make in your paper. For example, in the above introductory paragraph I have indicated that social class and gender are the two points I am going to discuss. In this section I would expand on these points and explain how gender and class have shaped my sporting experiences. Here, you may want to try and weave personal experiences together with course content in your explanation as this will be an important component of the final paper (Part III). Here is an example of how social class influenced my sporting body:

Point 1: Through the readings associated with the Sport and Social Stratification chapter, I have learned that my social class positioning has enabled me to participate in certain sports that many others may have not been able to pursue. Coming from an upper middle-class background allowed me to pursue sports like competitive swimming and sailing, both of which involve high registration fees and travel expenses that may be prohibitive for others. In addition to economic privilege, my parents—and my extended family—were heavily involved in the community, which also afforded me social capital that paved the way for my participation in certain sports.

This is only one point, included here for illustrative purposes, and if I were doing this assignment, I would continue by overviews the other points I would like to include in my paper (usually papers of this length would include between 2-4 points).

- 3) Identify, define and explain the key concepts you are going to be using from the course: Here, you are going to think about what course material will help you develop your explanation of social and cultural influences. In the introduction example I have provided above, I will be using concepts related to gender and class. Therefore, I might want to bring concepts such as meritocracy, gender ideologies, or sport typing into my paper. I have also introduced the concepts of sociological imagination, social and economic capital, and masculinity in my introduction, which means that these are also key concepts I should define and explain. Once I have identified these key concepts, I will give a brief definition or explanation of the concept. In defining and explaining terms and concepts, be sure to use your own words. In other words, do not use direct quotations in your definitions/explanations. The purpose of this stage is to get you thinking about how course content can help you develop your paper. Keep in mind, if you introduce a concept from the course in your paper, you should define or explain that concept.

- 4) Provide a reference list: This step is simply designed to get you practicing APA referencing. Here, you will provide a reference list of all of the references you have cited in your paper. Keep in mind, that if you are citing the course textbook, each chapter is written by a different author (or authors).

Part II Physical Cultural Analysis Outline: Assessment Criteria	
Are all of the components (1-4 outlined above) completed (i.e., introductory paragraph, articulation of points/arguments, definition and explanation of concepts, inclusion of APA reference list)? Is there an appropriate number of points/arguments, concepts (e.g., too few, too many, correct amount)?	1 mark
What is the quality of each component? Is the introduction clear and well-organized? Are the points/arguments well-articulated? Are the concepts well defined or explained? Does the student use their own words to define/explain concepts? Is there a strong connection to course content versus a heavy reliance on personal opinion/experiences?	7 marks
What is the quality of writing (i.e., grammatically correct, proper spelling, and limited typographical errors)? Does the outline meet formatting requirements (e.g., title page, APA referencing)?	2 marks

Format:

1. Two typed page, double spaced (not including title page or references).
2. 12-point font
3. One-inch margins
4. Title page (American Psychological Association (APA) format—example to be posted on Canvas) with appropriate information (course name, course number, a relevant title, assignment title, due date, name of course instructor, student name and number).

Submission: Assignments should be submitted on Canvas under the Assignments heading.

Part III Physical Cultural Analysis Paper (30%)

Due: (PST). Papers received after 11:59pm (PST) will be considered late. Papers can be uploaded to Canvas under Assignments.

NOTE: There is dedicated lecture time on to overview and discuss Part III of the Physical Cultural Analysis assignment.

Purpose: This third component of the assignment is building on Parts 1 and 2 and is designed to get you to further apply course content to your own body and bodily movement practices (i.e., sport, physical activity and exercise). Through this assignment, you will:

- Apply course content (i.e., concepts and theories) to your own everyday lived practices;
- Understand the relationship between social and cultural context, movement and the body;
- Understand and explain the relationship between power and human movement;
- Develop critical thinking and writing skills.

Instructions:

- 1) For the third and final component of the Physical Cultural Body Analysis, you are going to write an essay that examines your moving body (that is, your body engaged in sport, physical activity, physically active recreation or human movement broadly) using a physical cultural lens. Expanding on your proposal for Part II, you will draw upon course content—including lectures, tutorials, class discussions, films, and course readings—to examine your movement practices. In

so doing, think about the multiple ways we have talked about the body throughout the course, including through family and peer relations, an historical perspective, gender, social class, race, ethnicity, risk and deviance, body size and shape and so on. Think about how these socially constructed ideas have influenced how you understand and do movement. In this paper you are going to write about the relationship between these social constructions and your own movement practices.

- 2) You are welcome to use any content from the course that helps you develop your essay. Keep in mind, however, that this is a relatively short paper and you should not try and do too much. In other words, it is better to focus your essay on two or three key points and use relevant course content to elaborate on those points in a thorough and penetrating manner than it is to write a broad, superficial essay that attempts to cover too much content. You do not need to do outside research for this assignment, but you are welcome to include additional sources (e.g., research literature, newspaper articles). If you do use outside sources, be sure to include these sources in your reference list.
- 3) In terms of the body of the paper, you will be evaluated on how you do the following. First, how you identify, define and explain the concepts you use from the course. Second, how you analyze your own movement practices in relation to the concepts you are using. In other words, are the connections between course content and your own movement experiences clear and do these connections shed insight into the socio-cultural dimensions of movement? Third, power relations are a central theme of KIN 160 and it is important that you discuss how power shapes your movement practices. In other words, you are being asked to describe how your movements are enabled and/or constrained by power relations.
- 4) Keep in mind that this is not an opinion paper. You are expected to clearly connect course concepts to your own physical cultural body. Personal examples are welcome, but they must be examined in relation to course material.
- 5) The paper should have a clear introduction that outlines the key points you will be making in your paper and a conclusion that summarizes your overall paper.

Details: The paper should be in accordance with the following requirements:

- Title page (including all relevant information—APA format—sample cover page posted on Canvas);
- 5-6 pages (**not** including title page and reference list), double-spaced, numbered, 12-point font, 1” (2.54cm) margins;
- Include: Introduction, Body and Conclusion;
- Sub-headings are permitted, but not required;
- Papers can be written in the first person (i.e., “I argue that...”);
- American Psychological Association (7th Edition) referencing for course readings.

Part III Physical Cultural Analysis Paper: Assessment Criteria

Rubric posted on Canvas

4) TAKE HOME EXAM (15%):

The final take home exam will be distributed on the final day of the course (). During that class, you will be given an opportunity to review the exam and ask questions. The take home exam will be due one week later () and will be submitted on Canvas.

POLICIES & EXPECTATIONS

Use of AI in KIN 160

You are permitted to use artificial intelligence (AI) tools in KIN 160. However, if you use ChatGPT (or a similar AI tool) to get ideas or to generate text for a draft or final version of any part of an assignment, you must declare that you have used it and how you have used it. This declaration would usually appear in the Reference List of your assignment and would include a couple of sentences describing the extent to which AI was used, and you must save any generated text from this tool in case it is requested by the teaching assistant or course instructor.

You will not be penalized for using this tool, but a TA or the instructor may ask you to provide the generated text in order to help with grading decisions. In this case, your (or your group's) *original* contributions will be evaluated.

Failure to declare the use of AI, and how it was used, will be considered “unauthorized”. (See 3.b below). Using ChatGPT or similar tools without declaring its use is considered Academic Misconduct under UBC's policy ([3. Academic Misconduct by UBC Students](#)):

- Section 3.b. “use or facilitation of unauthorized means to complete an examination or coursework”
- Section 3.e. “committing plagiarism, namely submitting or presenting the work of another person as one's own, without appropriate referencing.”

Class Attendance

Regular attendance is expected for all classes. Students who neglect their academic work and assignments may be excluded from final examinations. Students who are unavoidably absent because of illness or disability should report to their instructors on return to classes.

Academic Accommodation for Students with Disabilities

The University's goal is to ensure fair and consistent treatment of all students, including students with a disability, in accordance with their distinct needs and in a manner consistent with academic principles. Students with a disability who wish to have an academic accommodation should contact Student Services Access and Diversity without delay.

Classroom Etiquette

Students are expected to be prepared for class, having read weekly assigned readings and prepared to discuss and apply them in class discussions and activities.

Academic Dishonesty

Please review the UBC calendar “Academic Regulations” for the university policy on cheating, plagiarism, and other forms of academic dishonesty ([3. Academic Misconduct by UBC Students](#)).

Inclusivity Statement

Education is a multidisciplinary field that brings together faculty, students and others from diverse academic and personal backgrounds. UBC's Faculty of Education is committed to creating a respectful workplace and learning environment that supports inclusion based on the principles of equity, diversity and social justice in order to create an environment that supports its community members' full participation. The Faculty of Education is committed to providing accessible, usable, and welcoming spaces for faculty, staff, students, and visitors

who have disabilities, are members of racialized communities, Indigenous, transgender, two-spirit and gender-diverse people, regardless of their age, sexual orientation, social status, religion, ethno- linguistic, nationality and/or citizenship status.

Faculty of Education courses take place in learning environments that are inclusive of gender identity, gender expression, sex, race, ethnicity, class, sexual orientation, ability, age, etc. Learners and educators expect to be treated respectfully at all times and in all interactions. Non-sexist, non-racist, non-homophobic, non-transphobic and non-heterosexist language is expected in Faculty of Education classes, course content, discussions and assignments.

Please feel welcome to e-mail your instructor your name and pronoun and how you would like these to be used.

UBC Values and Policies

UBC provides resources to support student learning and to maintain healthy lifestyles but recognizes that sometimes crises arise and so there are additional resources to access including those for survivors of sexual violence. UBC values respect for the person and ideas of all members of the academic community. Harassment and discrimination are not tolerated nor is suppression of academic freedom. UBC provides appropriate accommodation for students with disabilities and for religious and cultural observances. UBC values academic honesty and students are expected to acknowledge the ideas generated by others and to uphold the highest academic standards in all of their actions. Details of the policies and how to access support are available (<https://senate.ubc.ca/policies-resources-support-student-success>).

SCHEDULE OF READINGS

REQUIRED READINGS & LEARNING RESOURCES

Required readings include ALL listed chapters, electronic journal articles as well as other sources (e.g., online articles, podcasts, and videos). Students are responsible for accessing appropriate materials.

Strategies for Success in KIN 160

Attend all classes. You will be tested on all lecture and reading material. The readings will act as a supplement to lectures but may not be the focus of the lecture itself. Discussions and examples presented in lectures provide you with additional material from which to learn.

- i. Each student is responsible for **taking notes** from the lectures.
- ii. **Read assigned readings** before the topic is covered. This will assist in your understanding of the material and will help you to participate during classes. *It is particularly important to complete readings prior to the Tutorials*
- iii. **Participate in discussions.** The more you participate, the more enjoyable the class is for everyone. As well, it provides you with an opportunity to raise questions and to engage in critical thinking.
- iv. **Study throughout the term;** not just the day before the exam. This practice allows you to think about the material and to ask questions about concepts that you do not understand well before the exam.
- v. **Submit assignments on time.**
- vi. **Be an active participant in the class.** Be respectful of others.

Detailed Grading Description

(A- to A+) Demonstrates that the individual (or group) significantly shows initiative, creativity, insight, and probing analysis where appropriate. Shows a high degree of personal engagement with the topic and makes connections that are deep and insightful. Production of exceptional work that greatly exceeds course/assignment expectations.

(B- to B+) *Competent performance:* Evidence of grasp of subject matter; some evidence of critical capacity and analytic ability; reasonable *Work of outstanding quality:* Strong evidence of original thinking; good organization; capacity to analyze and synthesize; superior grasp of subject matter with sound critical evaluations; evidence of extensive knowledge understanding of relevant issues; evidence of familiarity with the literature. Work that demonstrates in-depth comprehension of the subject. Frequently articulates original, creative and critical insights. Reveals a willingness to engage actively in the learning experiences of the course and to make personal and meaningful connections. Meets course/assignment expectations.

(D to C+) *Adequate performance:* Limited understanding of the subject matter; limited ability to develop solutions to simple problems in the material; acceptable but uninspired work, not seriously faulty but lacking style and vigour. Background knowledge is limited. Shows few original, creative and critical

insights. Needs further development in the areas of critical reflection, inquiry and creativity. Inconsistent evidence of personal involvement in the learning experiences of the course. Just meets course/assignment expectations.

(F) *Inadequate performance*: Little or no evidence of understanding of the subject matter; weakness in critical and analytic skills; limited use of the literature. Does not meet course/assignment expectations.

GRADING SCHEME

Letter Grade	Percentage
A+	90-100
A	85-89
A-	80-84
B+	76-79
B	72-75
B-	68-71
C+	64-67
C	60-63
C-	55-59
D	50-54
F	0-49
